# MENUTECH

## STREAMLINE YOUR WINE LIST CREATION PROCESS

**Menutech** was founded in 2017 by FoodTech experts with a background in hotel management. Supported by the European Union, our mission is to efficiently accompany food service professionals in planning a varied, healthy, and seasonal food & beverage offering for their clients.

with **98,000 MENUS** created to date using our software, we have a proven track record in wine list creation and design.

## WHY MENUTECH?

### Effortless

Our software empowers clients to independently manage their wine lists, with designs that effortlessly fall into place.

### Data Integrity

Automated translations and seamless data storage (vintages, prices, ...) ensure all information is readily available for future use.

### Real-time Updates

Quick updates for changing information such as prices and vintages allow for adaptability in real-time.

# ENHANCE YOUR EXPERIENCE

## Menu Import Service

Let us do the heavy lifting by preparing the import of your existing data. We'll retranscribe your work into the Excel format for quick import.

## Menu Design Service

Our experienced design team is here to bring your ideas to life, creating a visually appealing and cohesive menu that resonates with your audience.

### Pricing upon request

Get in touch with our team to discuss your project in detail, and we will provide you with a personalized pricing proposal designed to meet your specific needs.

### If you prefer to work independently

Our software also enables you to effortlessly and swiftly import existing data from your wine list while easily managing your style library.

YOUR SUCCESS, OUR PRIORITY
